Trafalgar Accounting Solutions for Visa Applications

TRAFALGAR is able to assist contractors and agencies with visa applications to work in the UK.

TRAFALGAR has links with a team of independent experienced immigration lawyers who are able to navigate contractors through the headaches and maze of visa and work permit applications.

Completion of a preliminary enquiry form will rapidly establish whether a visa or work permit is required or obtainable. If a visa or work permit is required, an estimate of the total cost of the application is also supplied before proceeding.

Once a decision is made, all the paperwork, applications and contracts are arranged on behalf of the individual.

For contractors working in the UK, **TRAFALGAR** will automatically produce income projections and company paperwork for operating through one of our solutions.

To discuss the advantages of working through **TRAFALGAR** Accounting Solutions call us on:
